INTRODUCTION
and GENERAL INDEX

R. L. POLK & CO., publishers of the Chico and Oroville City Directories, as well as more than 850 other city, county, state and national directories, present to subscribers and the general public, this, the 1958 edition of the Chico and Oroville Directory.

Confidence in the continued growth of Chico and vicinity's wealth, industry and population, and in the advancement of its municipal and social activities, will be created as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Chico, Oroville and vicinity to the world.

The enviable place occupied by R. L. POLK & CO.'S Directories in offices, stores, libraries and homes throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, having the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Chico and Oroville Directory will fulfill its mission as a source of authentic information pertaining to the community.

Four Major Departments

The four major departments are arranged in the following order:

I. THE YELLOW PAGES constitute the first major department of the Directory. This embraces a complete list of the names and addresses of the business and professional concerns of the city, arranged in alphabetical order under appropriate headings—a catalog of all the activities of the city. Preceding this catalog, likewise grouped under appropriate headings, are the advertisements and business cards of firms and individuals desiring to present a more complete list of their products or services than is possible in the catalog itself. The Yellow Pages represent reference advertising at its best, and merit the attention of all buyers and sellers seeking sources of supply or markets for goods. In a busy and diversified community like Chico and Oroville, the necessity of having this kind of information up-to-date and always immediately available is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Chico and vicinity, and the name, official personnel, nature and address of each firm and corporation. There is a similar list for Oroville.

III. THE CHICO DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, is the third major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the listing of telephone numbers as supplied to us on canvass are shown opposite the name. There is a similar section for Oroville.

IV. THE NUMERICAL TELEPHONE DIRECTORY for Chico and Oroville is the fourth major department, printed on blue paper.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in truthful terms what it has to offer as a place of residence, as a business location, as an industrial site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference and serve as perpetual and reliable advertisements of Chico, Oroville and vicinity, for business men, everywhere, realize that the City Directory represents a community as it really is.

The Chico Directory Library

Through the courtesy of the publishers of the Chico and Oroville Directory, a Directory Library is maintained in the offices of the Chico Chamber of Commerce for free reference by the general public. This is one of the more than 750 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

Do your employers furnish you with the latest edition of the City Directory?

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

Out of Sight • Out of Mind
★ *Out of Business* ★

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

★

The City Directory is the natural medium for keeping a business or product name in the spotlight. ***Insist on being well represented in its pages.***

PLEASE! Do Not Lend Your CITY DIRECTORY

IT COSTS YOU MONEY—Every Time it Is Loaned

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the DIRECTORY of Your City.

THIS COST MUST BE ABSORBED BY THE SUBSCRIBERS—BE THEY ONE—OR BE THEY 1000.

If there were but ONE SUBSCRIBER to the CITY DIRECTORY—THE ONE SUBSCRIBER would of necessity have to absorb THE WHOLE COST.

If there were 100 SUBSCRIBERS—each one would have to absorb 1/100th PART OF THE WHOLE COST.

If there were 1000 SUBSCRIBERS—each one would have to absorb 1/1000th PART OF THE WHOLE COST.

From which it is obvious that the GREATER the number of subscribers —the LESSER the cost to each.

And

It is also obvious that the LESSER the number of subscribers—the GREATER the cost to each.

Every time you loan your City Directory the LESS NECESSITY THERE IS FOR THE BORROWER TO SUBSCRIBE FOR THE SERVICE.

MORE BORROWERS result in FEWER SUBSCRIBERS which means INCREASED COST.

CAUTION . . . . . .

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1958

Copyright, 1959, by R. L. Polk & Co.

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or householder or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol ◎ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite site names.

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.)

(This section includes some listings reading "No Return." In each case the publishers tried diligently, by various means, to obtain the information for the occupants, but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.)

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1958

Copyright, 1959, by R. L. Polk & Co.

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol ⓞ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite site names.

Sewage Disposal—Area within the corporated limits and the district south of the city are served by sanitary sewer in conjunction with disposal plants.

Mosquito Control—Abatement District supported by county taxation.

Recreation—Municipal Auditorium, located in the center of the business district and available for all types of recreational functions. One theatre—air-conditioned; one drive-in theatre; four municipal parks, most extensive of which is "Bedrock," along the Feather River with life guard service and bath house. Four athletic fields, night baseball games in summer; Little League; Feather River Park and Parkways Recreation District with Director; municipal swimming pool; municipal tennis courts; municipal Scout building; Oroville has one of the finest smooth water motor-boat courses in Northern California. 600 miles of trout fishing streams empty into the Feather River, forming the North and West boundaries of Oroville. Bidwell Bar State Park—9 miles east of Oroville with picnic grounds, swimming, bathhouses. Table Mt. Golf Course; Feather Falls with its drop of 640 feet, second highest falls in the state, within 20 miles of Oroville.

Development of the Feather River

The Feather River—The Feather River will be the scene of the West's greatest water and power development during the next decade. At least four major projects, totaling nearly $2 billion, are in various stages of realization, and all head up at or near Oroville. This almost fantastic program will play a major role in the development of the Oroville area, as well as the county, and in fact, the entire state.

Pacific Gas & Electric Co.—Already underway is the Pacific Gas & Electric's program of developing four new power plants on the North Fork of the Feather. Workmen are now busy on the construction of the first of the facilities —the $35,000,000 Poe Power Project. This work is going on some 20 miles up the Feather River Highway from Oroville, and at its zenith will provide jobs for more than 1,000 men. The utility has federal power commission permits to construct three more power houses—one at Belden, one at Caribou (making 2 at this location) and another at Butte Valley.

Total cost of these four installations—which will make the Feather, in the words of the P. G. & E., the most "powerful" river in the world—is estimated at $140,000,000. The company hopes to extend the work over a period of years—providing construction type employment for more than 1,000 men for perhaps as long as 8 or 10 years. Oroville is the focal point for this entire program, and the local economy already is experiencing the benefits.

Feather River Project—Major development on the Feather—and indeed the biggest water project ever undertaken —is the state authorized Feather River Project. Five and a half miles upstream from the City of Oroville will be located the half billion dollar Oroville Dam—key feature in a plan to transport water as far south as the City of San Diego, with 1,800,000 acre feet allocated to users south of the Tehachapi mountains, according to the state engineer's final proposal. Just when the tremendous bulk of the gigantic dam structure will start to pierce the rugged canyon vista is in the hands of the California legislature.

Middle Fork Project—Another project possibility, this one sought by both the P. G. & E. and the Richvale Irrigation District, is located on the Middle Fork of the Feather River. Estimated expenditure here is $100,000,000.

South Fork Project—Still another development is the South Fork Project, proposed by the local Oroville-Wyandotte Irrigation District to increase its supply of farming and domestic water. The district proposes a project costing in excess of $30,000,000, and holds a federal power license.

The state engineer suggests that the State of California undertake the development of the South Fork for the local district as part of the mammoth Feather River Project.

Transportation—The Feather River Highway U. S. No 40-A, the only all year snow-free route across the mountains of Northern California. Western Pacific Railroad, main line; Southern Pacific Railroad, branch line; Sacramento Northern Railroad, branch line; Gibson Bus Lines; Pacific Greyhound Lines, transcontinental service; Oroville lateral of U. S. Highway 99-E, 1,416 miles of county roads.

OROVILLE DISTRICT

The City of Oroville, county seat of Butte County, is the western gateway to the all-year Feather River Highway U. S. 40 Alternate and fabulous Feather River recreational region.

Location—472 highway miles north of Los Angeles, 157 highway miles northeast of San Francisco, 81 highway miles north of Sacramento, 153 highway miles northwest of Reno.

Topography, climate, rainfall—On the floor of the east edge of the central Sacramento Valley. Bounded on the east by the foothills of the Sierra Nevada and on the north and west by the Feather River. Valley is flat-rolling agricultural land. Climate is semi-tropical. Summer is tempered by downdraft breezes from mountain passes. Mean annual temperature 61.8° F. Average annual rainfall 37.90 inches. Air currents flowing down the Feather River canyon dispel fog. Altitude 175 feet.

Agriculture—Practically all major foods are grown in this district. Oroville is noted for producing the earliest navel oranges and processing more olives in this area than in any other region in the U. S. Other products are lemons, peaches, figs, prunes, melons, almonds, walnuts, apples, pears, berries, numerous small fruits, rice wheat, barley, beans, peas and forage crops. U. S. government records show an average of 256 growing days per year.

Stock raising, dairying, poultry—Extensive cattle and sheep raising in the mountains east and north of Oroville. Large dairy herds and hogs in the lower valley areas west. Poultry and turkey raising in general throughout the district.

Industrial Sites and factory strategically located are available for both small and large industries. There is a stable supply of skilled and unskilled labor, many of whom are property owners living in the city or on small suburban acreages. Unlimited Opportunities exist in the Oroville area for further development.

Medical Service—13 physicians, 10 dentists, 3 optometrists, 1 oculist, 6 chiropractors, 1 chiropodist, 1 osteopath, 3 veterinarians, 2 hospitals (Butte County Hospital and Oroville-Curran Hospitals); 7 rest homes, 1 clinic.

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1958

Copyright, 1959, by R. L. Polk & Co.

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol ◎ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names.

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.)

(This section includes some listings reading "No Return." In each case the publishers tried diligently, by various means, to obtain the information for the occupants, but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.)

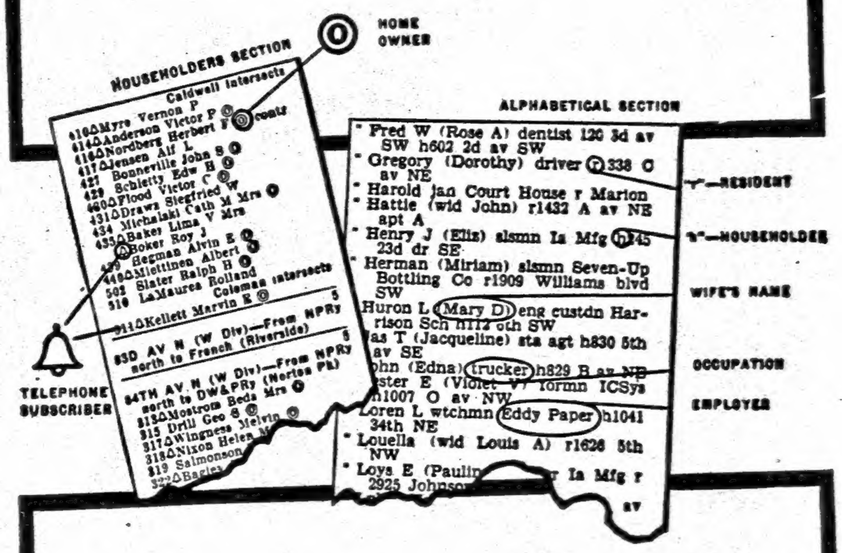
CITY DIRECTORY ADVERTISING IS *National* ADVERTISING

★ Each edition of your City Directory is widely distributed to free-reference City Directory Libraries located at the Chambers of Commerce of hundreds of other cities.

★

Therefore your ad in the City Directory is seen by buyers from coast-to-coast

DIRECTORY SYMBOLS AND DESIGNATIONS



IN ADDITION to names and addresses, your City Directory contains much detailed information concerning the people of your community. In order to list this information certain symbols and designations have been developed which enable important statistics to be compressed into the smallest possible space. You will receive far greater benefits from your City Directory if you familiarize yourself with the symbols and what they stand for.

In checking credit applications, in conducting direct mail advertising programs, in planning sales campaigns, in building prospect lines, and in scores of other ways your City Directory will prove of invaluable assistance.

AIDS TO PROPER MAILING

Do not use "Township" as part of your address.

Write name and address plainly and completely.

Place name and address of sender on all matter.

Prepay postage fully on all letters and parcels.

Always address mail for city delivery to street and number and request correspondents to do likewise.

Use designation North or South, East or West when it is a proper part of the address and save delay in delivery.

Insure valuable parcels except those containing small articles of considerable value which should be registered.

Wrap parcel post carefully in heavy paper and tie knots securely.

You will often gain a day's time in delivery by depositing mail as soon as it is ready.

Use Postal Unit numbers on mail addressed to cities where Unit Numbers are required.

Know Your Endorser

• The United States Secret Service has launched a "KNOW YOUR ENDORSER" campaign against check forgery to supplement its highly successful "KNOW YOUR MONEY" drive, which, over a period of six years, reduced the amount of counterfeit money in circulation by more than 97 per cent.

We can all cooperate in this long-pull educational program and thus eliminate the market for forged checks by making it dangerous and unprofitable for forgers to operate. Here are a few simple rules for those who cash checks and those who get them cashed.

If You Cash Checks for Others

1. DEMAND PROPER IDENTIFICATION. Remember that lodge cards, Social Security cards, auto licenses, letters and the like can be forged and stolen. A forger's credentials are often forgeries themselves. Proper identification can best be determined by asking yourself this question: "IF THIS CHECK IS RETURNED, CAN I FIND THE PERSON WHO GAVE IT TO ME?"
2. Always demand that the person cashing the check endorse it in *your presence.* Even though the check has been endorsed, insist that he endorse it again.
3. Do not cash checks that show any alteration of their face. Altered checks are usually forged checks.
4. If you are an employer and more than one employee of yours is empowered to cash checks, be sure that they initial every accepted check so that you can identify the person who cashed it.
5. You can safeguard your merchandise, your cash, and your profits from check forgers by following these simple rules every time you cash a check. Make these practices routine. Remember you lose if you cash a forged check.

If You Get Checks Cashed

1. BE SURE some member of the family is at home when checks are due to be delivered. Get the check as soon as it arrives.
2. PRINT your name clearly on your mail box. EQUIP your mail box with a lock if you have not done so.
3. CASH your checks in the same place each month. This will make identification easier.
4. DO NOT ENDORSE your check until you are in the presence of the person you will ask to cash it.
